SUMMARY

I am a Senior Full Stack Developer with over 10 years of experience dedicated to building dynamic, scalable, and user-friendly web applications. My expertise spans modern JavaScript frameworks such as React, Next.js, Vue.js, and Angular, along with robust Backend development using Node.js and Python, and both SQL and NoSQL databases. I am committed to delivering efficient, high-quality software solutions that enhance user experience and drive business success.

EXPERIENCE

Senior Full Stack Developer

Reshop

06/2020 - 09/2024

Reshop - Platform enabling instant refunds for e-commerce returns.

- Built a modular **React admin dashboard** for real-time inventory and order tracking.
- Integrated **third-party APIs** using **Node.js** and **MongoDB** to improve operations.
- Migrated to **Next.js**, cutting page load times by **40%**.
- Mentored developers, led **code reviews**, and improved engineering standards.
- Collaborated with stakeholders** to align technical solutions with product goals.

Full Stack Developer

HealthSnap

03/2017 - 05/2020

A telemedicine platform providing innovative healthcare solutions.

- Built a **HIPAA-compliant** telemedicine platform with **Vue.js** and **Node.js**.
- Implemented **secure authentication flows** with **Firebase** and **OAuth 2.0**, ensuring data privacy and compliance.
- Designed **intuitive UIs** with clinicians, reducing onboarding time.
- Added **real-time video and chat modules** to enhance patient experience.
- Optimized backend performance, improving API response times by **30%**.

Software Engineer

Lighthouse Payment Services

06/2014 - 02/2017

A company specializing in payment solutions and processing services.

- Developed a **payment portal** using **Angular** and **Express.js**.
- Improved performance by **refactoring backend services**, reducing **server response time by 20%**.
- Implemented **automated tests** with **Jest** and **Mocha**, reaching **95% coverage**.

EDUCATION

Bachelor of Computer Science

Illinois Institute of Technology

09/2010 - 05/2014 📍 Chicago, IL

SKILLS

JavaScript	TypeScript	Python	
React	Next.js	Vue.js	Angular
Node.js	Express.js	Django	
PyTorch	REST API	GraphQL	
Supabase	NoSQL	SQL	
MySQL	MongoDB	PostgreSQL	
AWS	GCP	DevOps	CI/CD
Docker	Kubernetes	Jenkins	
Jira	Bitbucket	Git	OpenAI

PROJECTS

CrimeRisk.AI

www.crimrisk.ai

- Built an **interactive crime analytics platform** using **React** and **Mapbox** with dynamic heatmaps and real-time geospatial data.
- Designed and integrated **APIs** for user authentication and crime data while managing the **UI lifecycle** from prototype to production with focus on performance.

Hemmings

www.hemmings.com

- Developed a classic car marketplace using **Vue.js**, **Moment.js**, and **Lodash** for Smooth front-end performance.
- Integrated analytics tools such as **Parse.ly**, **Google Analytics**, and **LogRocket**, deployed on **Amazon Web Services** with Apache HTTP Server and Imperva CDN for enhanced security and scalability.

Big Cartel

www.bigcartel.com

- Developed an e-commerce platform using **React**, **Next.js**, and **Tailwind CSS**, enhancing performance with Priority Hints and dynamic interactivity through **Swiper** and **Core-js**.
- Integrated analytics tools like Amplitude, **Google Analytics**, and **Microsoft Clarity**, deployed with **Cloudflare CDN** for optimized content delivery.
